

Setting the Standard

Since opening the Preston Woodall House in 2000, I have had the opportunity to work with the best event professionals in North Carolina as my team and I continue to create and design amazing events. I have often said that not having a professional consultant to help plan your event is the biggest mistake I see people make when putting an event together. I have now designed, directed and helped plan hundreds of events across North Carolina as my passion for design and the small details mesh to create stunning weddings. As the owner of a premiere event facility, I take pride in offering the best coordinating, planning and customized planning services in the triangle. We offer a diverse range of wedding planning services to meet our clients' needs.

We are dedicated to serving the needs of our clients each and every day. From bold, dynamic wedding designs to ten-person corporate retreats we can plan every detail of your event. Our customized packages offer flexibility tailored to your needs and vision.

Let's get started planning your next event!
